Juliana Dias

Senior Ruby Software Engineer | Ruby Specialist & Technical
Reviewer – Packt | Admin @ RubyBrasil | Event Organizer &
Community Leader

Goiânia, Goiás, Brasil

Resumo

Ruby has been my craft and my community for over 12 years.
As a Software Engineer and Technical Reviewer – Ruby Specialist
at Packt, I focus on writing, reviewing, and refining content that's
technically accurate, clear, and genuinely useful to developers.

Beyond the code, I've dedicated my career to building and leading
the Ruby Brasil communities — organizing events like Tropical on
Rails, Ruby Summit Brasil, and speaking as a keynote at RubyConf+
Brasil 2022.

Whether I'm reviewing a book, hosting a meetup, or connecting
developers across Brazil, my mission is the same: help people grow,
share knowledge, and make technology better together.

Experiência

Ruby Brasil - Guru-BR

Ruby Software Engineer & Community Manager

janeiro de 2013 - Present (12 anos 10 meses)

Internet

Supporting Ruby Brazil community.

Packt

Technical Reviewer - Ruby Specialist

julho de 2025 - Present (4 meses)

Birmingham, England, United Kingdom

Provide detailed feedback on Ruby programming titles, focusing on technical
accuracy, clarity, and code quality. Ensure published content meets high
standards and delivers practical value to developers and readers.

Stealth Startup

Softwareentwicklerin

Tropical.rb

Community Manager

maio de 2023 - maio de 2024 (1 ano 1 mês)

Goiânia, Goiás, Brazil

Catarse

Technical Lead

março de 2023 - junho de 2023 (4 meses)

Goiânia, Goiás, Brazil

- * Conducted regular 1:1 meetings, providing guidance, feedback, and support to team members.

- * Played a key role in maintaining a positive team culture, fostering a productive and motivated work environment.

Raro Labs

Software Consultant

agosto de 2022 - fevereiro de 2023 (7 meses)

Goiânia, Goiás, Brazil

Brazilian Insurance Company:

- * Successfully rearchitected refund payment transactions for claims, resulting in improved efficiency and accuracy.

- * Implemented a new login workflow for retailers, facilitating smoother user experiences and streamlined processes.

- * Maintained and refactored bureau-related rules, ensuring compliance and optimal system performance.

Cilia Tecnologia

Head/Manager of Software Engineering

fevereiro de 2021 - julho de 2022 (1 ano 6 meses)

Some responsibilities and contributions:

- * Led the recruitment and organization of Ruby teams, ensuring efficient team dynamics.
- * Contributed to project development and architecture, driving successful outcomes.
- * Implemented agile methodologies across projects and at the organizational level, fostering efficient workflows.
- * Introduced a DevSecOps culture, emphasizing security and operational efficiency in project lifecycles.
- * Optimized project performance, quality, and security, resulting in enhanced deliverables.
- * Upgraded a Ruby on Rails project to the latest version of the framework, leveraging its latest features and improvements.
- * Served as a project leader and spearheaded the migration of a new product, driving its successful integration into the company's portfolio that's responsible for 30% national insurance market share.
- * Collaborated closely with the team to code and deliver the new project, ensuring timely completion and high-quality results.

Magrathea Labs

Software Craftswoman & Tech Lead

fevereiro de 2020 - fevereiro de 2021 (1 ano 1 mês)

Goiânia, Goiás

- * Developed systems using a mastery of software engineering principles, aiming to improve overall system performance.
- * Proficient in technologies such as Ruby on Rails, PostgreSQL, Redis, MongoDB, Google Cloud Platform (GCP) services, CQRS, Hexagonal Architecture, Sidekiq, Upperkut, Google PubSub, Docker, Kubernetes, and more.
- * Served as an Architect (Tech) Lead, specializing in creating a new management email panel (built with Ruby on Rails) for Microsoft Exchange. Integrated the panel with Active Directory using a custom API developed with PowerShell.

Credere

Software Craftswoman

setembro de 2018 - fevereiro de 2020 (1 ano 6 meses)

Natal Area, Brazil

- * Proficient in code maintenance, optimization, and refactoring of Ruby on Rails legacy code.
- * Experienced in working with the Ruby on Rails and PostgreSQL stack.

- * Skilled in deploying applications using Docker, Ansible, and Kubernetes.

Rails Girls Summer of Code

Web Developer

julho de 2017 - setembro de 2017 (3 meses)

Goiânia Area, Brazil

Engaged in code maintenance, bug fixes, and feature implementation using Ruby on Rails and PostgreSQL

<https://teams.railsgirlssummerofcode.org/>

Tron Informática

Software Engineer

abril de 2016 - janeiro de 2017 (10 meses)

Goiânia, GO

- * Maintained an internal system built with Ruby on Rails and PostgreSQL, resolving reported bugs and optimizing code.

- * Successfully addressed all reported bugs, contributing to improved system performance.

- * Assisted in optimizing the dashboard and enhancing various system queries.

CodeBe.Me

Full Stack Engineer

janeiro de 2014 - fevereiro de 2016 (2 anos 2 meses)

Manchester Area, United Kingdom

- * Engaged in web and application development at The CodeBe, specializing in full-stack projects utilizing Ruby on Rails with PostgreSQL.

- * Developed various projects using WordPress, demonstrating versatility in different technologies.

- * Utilized Capistrano for deployment and managed deployments on Digital Ocean VPS.

Zocka Internet

Web Developer

julho de 2013 - dezembro de 2013 (6 meses)

- * Developed the backend of a booking website for a specific client, utilizing PHP and MySQL.

- * Maintained multiple local projects alongside the booking website.

Vipersys Tecnologia

Web Developer

dezembro de 2012 - julho de 2013 (8 meses)

Caldas Novas e Região, Brasil

- * Developed full-stack projects, primarily using PHP and MySQL.
- * Maintained a desktop software application using C#.
